

Auto Link II

OBD2DMI Interface

POWER SAVING

DMI Installation Break-Thru

Plug-In Interface Module for your DMI. Connect directly between OBD II port & DMI.

With AutoLink II instantly interface your DMI to your vehicle.

INSTALLS IN 30 SECONDS - Save the time, Save the hassle

- No Installation Costs
- No Cable Splicing
- No Separate Power Cable Runs
- No Waterproofing Problems
- No Sensor Module Adjustments

POWER SAVING FEATURE:

Switch the DMI on – AutoLink II goes on, Switch the DMI off – the AutoLink II goes off

The AutoLink II is a smart microprocessor controlled interface. Simply plug in the AutoLink II between the OBD II port and your Distance Measuring Instrument and you are ready to calibrate.
